Brake Evolution

EBS is proud to be Europe's leading independent manufacturer and distributor of air brake and vehicle control system components, and repair kits, in both its own successful premium quality brand as well as various original brands.

From our UK distribution centre based in Manchester our priority is to always supply UK and International customers with high quality replacement parts from the worlds largest, extensive and unique range of stock alongside competitive pricing and technical support.

Supported by a team of highly experienced air brake specialists, in all areas of our business, allows us to achieve a consistent high quality product and service to all of our customers.

DISCLAIMER

- All manufacturers references and images contained within this catalogue are for the purpose of reference only and do not imply or insinuate that the part is of original manufacture.
- The EBS logo and strapline "Brake Evolution" and packaging designs are registered trademarks Of European Braking Systems Ltd, EBS retains the power of disposal, such as copying, reproducing and transferring or the use of without prior written authorisation from European Braking Systems.
- Whilst EBS does supply genuine products the purpose of this catalogue is to provide a guide to the customer enabling them to find the correct part required for their application. EBS cannot accept any liability nor offer any guarantee regarding data accuracy.
- Whilst every attempt has been made to ensure the accuracy of the information contained within there may be mistakes and it is advised that customers telephone our sales department prior to ordering to confirm the suitability of the parts ordered.
- EBS will not and can not accept responsibility for incorrect orders if the customer fails to obtain verification prior to ordering.
- Subject to alteration without notice.
- This document, in part or in whole, may not be copied, transmitted or reproduced in any form without prior written authorisation from European Braking Systems.

Brake Evolution

COMPANY MISSION

To provide customers with a sustainable supply chain for quality aftermarket products through our extensive network of globally approved distributors.

QUALITY

An advanced ERP system supported by highly qualified engineers at all sites, together with tightly controlled production processes and lean manufacturing techniques sustain a warranty rate of below 0.25%.

DESIGN

Continual investment allows our Research & Development team to innovate, design and approve concepts of our rapidly expanding product portfolio.

MANUFACTURING

A state of the art manufacturing facility ensures paramount quality for the largest range of CV Brake calipers & associated braking components available to the aftermarket.

REMANUFACTURING

The longest established remanufacturing facility within the UK, supplying 5* quality parts that exceed OE standards.
